

# Margin Trading Pledge Process

A step-by-step guide to Pledge shares

# Introduction

As per the SEBI guidelines, with effect from September 01, 2020, in order to continue holding positions in Margin Trading beyond T+2 days, a New Pledge model has been mandated. As per this model, you will have to pledge your shares via OTP confirmation to continue holding positions under Margin Trading.

As per this new process, it is mandatory to Pledge your Margin Trading shares even if you wish to convert them to delivery beyond 'T' day. This means that you will not be able to do CTD (Convert To Delivery) unless your Pledge is created and shares are credited to your Demat.

In this document, we will explain the step by step process of pledging shares bought under Margin Trading.

#### Pending for Delivery page- Post market hours on 'T' day

Available margin (AM) amount displayed in red colour would indicate that AM on that position has fallen and is very close to breaching the minimum margin (MM) requirement. You are advised to allocate additional margin immediately else such position may be squared off by I-Sec if AM falls below MM.

This page need to be refreshed by the client by clicking on 'View' button to reflect latest details

Once your position is successfully created, right after the end of T day market hours, you will see the status of your position in Pending for Delivery page. Once the pledge request is initiated, the status on this page will reflect as 'Pledge Requested'.

### You will receive a link from NSDL/CDSL between 7-10 PM on 'T' day

# You can track your Pledge status in Pending for Delivery page. 'Customer Confirmed' status will reflect till you receive the payout of shares in your Demat account

# Status will change to 'Pledge Created' on T+2<sup>nd</sup> day

Once the shares are successfully credited to your demat account, the status will reflect as 'Pledge Created'. After this, you can convert your positions to delivery.
